

THE POWER SYSTEM DIFFERENCE

KPS-2050

LWH: 91 x 78 x 83 in

W/LP2: 123 x 78 x 83 in

The horizontal pressing station with a full featured multi-purpose bench and a second weight stack set the 2050 apart. The innovative design of the press arm can be used to perform dips or conveniently folds down out of the way allowing you to supplement your gym exercises with dumbbell workouts. This potent combination gets even better with the addition of the optional leg press (KPS-LP2).

ATTACHMENTS INCLUDED: squat bar pads, revolving lat bar, revolving straight bar, ankle strap, ab/tricep strap, (2) single grip handles
